The International Society of Doctors for the Environment (ISDE) and the Italian Society of Environmental Medicine (SIMA) are affiliated with the International Journal of Environmental Research and Public Health.
Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

**Author Benefits**

- **Open Access** Unlimited and free access for readers
- **No Copyright Constraints** Retain copyright of your work and free use of your article
- **Impact Factor 2.849** (2019 Journal Citation Reports®)
- **Rapid Publication** manuscripts are peer-reviewed and a first decision provided to authors approximately 17.6 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the second half of 2019)
- **Coverage by Leading Indexing Services** SCIE-Science Citation Index Expanded (Clarivate Analytics), SSCI-Social Sciences Citation Index (Clarivate Analytics), Scopus, MEDLINE (NLM), PubMed Central
- **No Space Constraints, No Extra Space or Color Charges** No restriction on the length of the papers, number of figures or colors
- **Discounts on Article Processing Charges (APC)** If you belong to an institute that participates with the MDPI Institutional Open Access Program
Aims and Scope

I J E R P H (ISSN 1660-4601) is a peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications in the interdisciplinary area of environmental sciences and public health. As a comprehensive multi-disciplinary journal, I J E R P H is comprised of twenty five major sections including the following:

- Children’s Health
- Climate Change and Health
- Digital Health
- Ecology and the Environment
- Environmental Analysis and Methods
- Environmental Chemistry and Technology
- Emerging Contaminants
- Environmental Health
- Environmental Microbiology
- Environmental Remediation and Management
- Environmental Science and Engineering
- Global Health
- Health Behavior, Chronic Disease and Health Promotion
- Health Care Sciences and Services
- Health Communication
- Health Economics
- Industrial Ecology
- Infectious Disease Epidemiology
- Mental Health
- Occupational Safety and Health
- Public Health Statistics and Risk Assessment
- Toxicology and Public Health
- Women’s Health
- Health Informatics
- Oral Health
